

ASHOK KUMAR A

+91 7892709122 | ashokravihal06@gmail.com | Bengaluru, India

PROFESSIONAL SUMMARY

Sr. Data Engineer with nearly 5 years of experience designing and developing scalable ETL and Big Data solutions. Expertise in Apache Spark, PySpark, Hive, Informatica PowerCenter, PostgreSQL, and AWS cloud services. Experienced in building cloud-native data pipelines using AWS Lambda, Step Functions, S3, and CloudWatch. Strong background in data migration, real-time processing, performance optimization, and enterprise data warehousing.

TECHNICAL SKILLS

Programming: Python, SQL, UNIX Shell Scripting
Big Data: Apache Spark, PySpark, Hive
ETL Tools: Informatica PowerCenter (Workflow Manager, Monitor, Designer, Repository)
Cloud: AWS (S3, Lambda, Step Functions, CloudWatch, Redshift, IAM)
Databases: PostgreSQL, Oracle
DevOps: Jenkins, Bitbucket, Git
Project Management: Jira, Agile/Scrum
Tools: Cloudera Manager, Kiro
Operating Systems: Linux, Windows

PROFESSIONAL EXPERIENCE

Sr. Data Engineer Nov 2025 – Present
Maveric Systems Limited — Insurance Domain Bengaluru

- Designed and developed cloud-native data pipelines using AWS Lambda, AWS Step Functions, and PySpark.
- Built scalable ETL frameworks for ingestion and transformation of insurance data from multiple source systems.
- Developed fault-tolerant workflow orchestration using AWS Step Functions.
- Optimized PySpark applications for large-scale claims, policy, and premium data processing.
- Managed PostgreSQL databases including schema design, indexing, and query optimization.
- Implemented CloudWatch monitoring, alerting, and centralized logging across pipeline components.
- Automated deployment processes using Jenkins and maintained source code through Bitbucket and Git.
- Developed data quality validation frameworks, reconciliation reports, and audit logging mechanisms.
- Managed AWS IAM roles and policies to enforce least-privilege access across pipeline components.

Data Engineer Sep 2021 – May 2025
Birlasoft Limited — Client: NOV (National Oilwell Varco) Bengaluru

- Designed and maintained enterprise data pipelines using Apache Spark, Hive, and AWS.
- Developed Informatica PowerCenter mappings, workflows, and sessions using Workflow Manager, Designer, Monitor, and Repository for large-scale ETL processes.
- Provided Level-2 support for production Informatica environments and resolved workflow failures.
- Migrated on-premise datasets to AWS S3 as part of cloud modernization initiatives.
- Developed partitioned and bucketed Hive tables to improve query performance.

- Built batch and real-time processing solutions using Spark and Spark Streaming.
- Integrated AWS Step Functions for orchestration of data processing workflows.
- Optimized Spark jobs using partitioning, caching, and memory tuning techniques.
- Managed Hadoop ecosystem services through Cloudera Manager.
- Collaborated with cross-functional teams following Agile delivery practices using Jira for issue tracking.
- Maintained codebase version control and collaboration workflows using Git and Bitbucket.
- Worked with Amazon Redshift for analytical query workloads and data warehousing use cases.

KEY PROJECTS

Insurance Claims Data Platform | *AWS Lambda, Step Functions, PySpark, PostgreSQL, CloudWatch, IAM*

- Built event-driven ETL pipelines for processing insurance claims and policy data.
- Developed serverless orchestration workflows using AWS Step Functions.
- Implemented monitoring, auditing, and reconciliation frameworks.
- Configured AWS IAM roles and policies for secure, least-privilege pipeline execution.

NOV Data Migration Platform | *Hive, Spark, Informatica PowerCenter, AWS S3, Redshift, Git*

- Migrated large-scale on-premise datasets to AWS cloud storage.
- Developed Spark and Hive processing frameworks for analytical workloads.
- Improved performance through partitioning and optimization strategies.
- Leveraged Amazon Redshift for downstream analytical reporting and warehousing.
- Managed source code and release branches using Git with Bitbucket workflows.

EDUCATION

B.E. – Sir M. Visvesvaraya Institute of Technology

Bachelor of Engineering

2017 – 2021

Percentage: 70%

PUC – Anubhava Mantapa PU College

Pre-University Course

2015 – 2017

Percentage: 70%

SSLC – Vivekananda Public School

Secondary School Leaving Certificate

2014 – 2015

Percentage: 84%
